

ACNE — Use Our New **"ULTRA-SAFE SUDS-PUMPS"**

"Our 13 year old son has an unusual amount of pimples and red blotches. He used a variety of acne medications along with other suggestions. We took him to a Dermatologist, who put him on Tetracycline, but we were concerned about the amount of toxic chemicals we were putting into and on his body. Upon hearing about **Ultra-Safe Suds®**, we decided to try it. He would wash with a 3:1 ratio twice a day. In just three (3) days we could not believe the difference. His complexion was clearer and 80% of all the pimples were gone. The red blotches were gone and his skin was not as oily."

Dana C. Christensen, Chaplin
7th Day Adventist, Denver, CO

BUGS & INSECTS — **"ULTRA-SAFE & BUGS-GO-EZE"**

"My family and I use the Solutions-4-You® products around the home and recommend them to others for cleaning, personal hygiene, for soothing minor bites & burns. In Arkansas we have to deal with the extremely poisonous brown recluse spiders. Just one squirt of the Ultra-Safe Solution® 3:1 on a spider and it is dead."

"The Solutions-4-You® products have some insecticidal activity at the recommended cleaning dilutions. We know that the Ultra-Safe products act as an emulsifier and we suspect that it causes the insects to suffocate from a result of damaging their breathing apparatus. The fatty acids of soaps (in this case, an Ultra-Safe liquid botanical cleanser), also act as emulsifiers and kill certain types of other insects in a similar fashion."

Carl M. Fellend, Ph.D. (retired)
Penn State University Entomologist

DENTAL-**ULTRA-SAFE PLUS+ LM (Medical Cleanser)**

"In my clinical practice, I use **Ultra-Safe Plus+ 3:1**, to clean out root canals and 7:1 for disinfecting surfaces in my operatory room for our patients who are chemically sensitive. I also pre-soak all of my dental instruments at 5:1 before sterilization. I recommend to all my patients that they use the **Ultra-Safe Solution®** for all tooth brushing to remove bacteria from their gums and teeth that creates gingivitis."

Darick A Nordstrom, DDS
Hollister, CA

HEALTH— Use Our New **"Fruit & Veggie Wash"**

"My name is Robert Nees, President and CEO of Optimum Health Institute. We teach holistic health and promote the use of Ultra-Safe Solutions. We use the solution extensively in our kitchen for washing fruits and vegetables, to clean all surfaces, and as a multi-purpose cleanser. The California Health Department has approved the use of Ultra-Safe as the multi-purpose cleanser. We provide Ultra-Safe Solution and Ultra-Safe Laundry for our guests' use during their stay and have had very positive feedback from them."

"My wife, Pam, a Registered Nurse and Instructor at the institute, is using the product called **Ultra-Safe Plus+** as a multi-purpose commercial cleanser and germicidal at the institute and in our home."

Robert P. Nees, CEO, President
Optimum Health Institute

INSECTS

"I am a certified organic farmer. Earlier this year I had a heavy infestation of squash bugs on my crop. Using the **Ultra-Safe Laundry®**, 63:1, within a few days I noticed that all of the squash bugs were completely gone! At the end of the season there was no adverse effects or damage on any of the fruits, vegetables or trees."

Glenn Austin/Austin Farms
Paonia, CO

MEDICAL

"Since becoming a medical doctor in '77, I have used a variety of natural products to help heal the body through alternative healthcare instead of prescription drugs. Since being introduced to the **Ultra-Safe Solution®**, I use it successfully in my clinical practice for a variety of conditions and/or diseases for my patients, such as:

- **Head Lice** 2:1 Medium Strength
- **Poison Ivy** 3:1 Full Strength
- **Ring Worm** 3:1 Full Strength
- **Skin Rashes** 7:1 Regular Strength
- **Vaginal Infection** 31:1 Very Light Strength

Being a medical physician over the past 25 years, with a couple years of general surgery along with my family practice, I specialize in alternative healthcare, along with natural & prescription products and Chelation Therapy.

Clarence E. Norris, MD
Charlotte, NC

FUNGUS / MILDEW / MOLD / SPORES —

"I am a Certified Baubiologist and Nutritionist and I specialize in food as medicine. A Baubiologist inspects all types of materials for mildew, mold and safe cleanup at commercial, industrial & residential sites. I use both **Ultra-Safe Plus+ (Commercial & Medical Cleansers)** to remove all fungus, mildew, mold and spores from all types of materials at construction sites."

"As safe as I have found the Solutions-4-You products to be, you always have to use any non-toxic product with caution because of the possibility of toxins being released from the materials that you are trying to clean."

Merilee Nelson,
Certified Baubiologist,
Hunt, TX

SKIN RASHES— Use Our New **"Suds Pumps"**

"At home, I use the Ultra-Safe® Suds Pump, 3:1, as a body wash and for rashes and skin infections. In my clinical practice, I use and prescribe the Ultra-Safe Suds Pumps to all of my patients with skin conditions. In one instance, with just one spray, within seconds the itching was gone."

Jorge Luis Moreno, DO
Santa Monica, CA

TEETH

"I brush my teeth daily with the Ultra-Safe Solution 7:1, and my teeth feel very clean. I have noticed that there is no plaque build up and my gums are much healthier. I also soak my tooth brush in a 3:1 solution overnight."

Janis Holzman-Betz, RN, BSN
Bellefonte, PA

VETERINARIAN— Use Our New **"Solutions-4-Pets"**

"In my clinical practice for the past 23 years, I have used many products for treating a variety of disease conditions in animals, primarily domestic dogs and cats. At Grand Laboratories I recommend to all the Veterinarians that they use their new Ultra-Safe Pet Shampoo to bathe the dogs and cats rather than using toxic shampoos."

Solutions-4-Pets new Ear, Paw & Skin Treatment in a normal 3:1 dilution, has worked wonders on chronic ear infections even those that are unresponsive to traditional treatments, including but not limited to, antibiotics and steroids. Generally within 3 days the infection is under control and within 2 weeks is completely gone."

Kent J. Trembly, DVM, JD
Larchwood, IA
